DETAILED ACTION

Response to Amendment

1. It appears that the Applicant inadvertently indicated that claim 9 is to be entered in the Response dated 06OCT04 as “(Original)” wherein it is actually edited on line 7, and thus should be reentered as “(Currently Amended)” in the next response.

Claim Rejections - 35 USC § 102

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 6, 7, 9, 10, 13, & 14 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Grimm et al (DE 199 46 008 A1). This prior art foreign patent has one inventor in common with the current application. This prior art foreign patent also was made available to the Examiner on 06AUG04 in the Applicant's Information Disclosure Statement (filed after the First Office Action on the Merits filed 08JUL04).

Claim Rejections - 35 USC § 103

4. Claims 2 & 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Grimm et al. in view of obvious common knowledge.

Grimm et al. disclose the claimed invention except for the sheet pieces made of either aluminum or synthetic materials. It would have been obvious to one having ordinary skill in the

Art Unit: 3612

art at the time the invention was made to use either aluminum or plastic, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious mechanical expedient choice. *In re Leshin*, 125 USPQ 416.

5. Claims 3, 8, 15, & 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Grimm et al. in view of obvious common knowledge.

As to the claim of embedded colors in plastic materials and placing variable colored sheets of material next to each other is deemed to be an obvious expedient as this aesthetic design works equally well in absence of evidence to the contrary.

6. Claims 4, 11, 12, & 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Grimm et al. in view of Wolf.

Grimm et al. disclose a vehicle body component (1) comprising: a first sheet piece (13); a second sheet piece (9); a synthetic foam layer (3); and a trim member (5).

However, Grimm et al. do not expressly disclose that the trim member is surrounded by a sealing member pinching the bent edges of the adjacent sheet pieces.

Wolf discloses two sheet pieces (16, 18) with adjacent bent edges (26, 28) joined together by a pinched sealing member (24) before being surrounded by a synthetic foam layer (22).

At the time the invention was made, it would have been obvious to a person of ordinary skill in the art to modify the vehicle body component of Grimm et al., to employ a sealing member, as taught by Wolf.

The suggestion/motivation for doing so would have been to better join the adjacent edges of the sheet pieces, as is desired in this vehicle invention.

Art Unit: 3612

Therefore, it would have been a desirable and thus a prima facie obvious modification of the vehicle body component by combining a sealing member with the bent edges of the adjacent sheet pieces to obtain the invention as specified in claim 4, 11, & 18, as taught by the prior references' motivation, and not hindsight from the applicants disclosure.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Applicant's U.S. Publication is entered.

8. Applicant's amendment and submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 06AUG04 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a) and 609(B)(2)(i). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
